22<sup>nd</sup> June 2009

To: All Customer, Suppliers, Colleagues & Friends

Dear All

It is with deep regret that I have to inform you Barry Richards, Radshape's Commercial Engineer passed away last Friday night, 19<sup>th</sup> June 2009

Barry was diagnosed with acute Leukemia in February this year and despite undergoing a series of chemotherapy treatment, and seemingly making good progress suffered an infection early last week which he never recovered from.

To everyone who new Barry he was professional in everything he did, thoughtful, caring and an extremely well liked person who will be sadly missed by everyone at Radshape

Our thoughts and sympathies are with Barry's wife, family and friends.

I would ask all of your support in Radshape's Three Peaks Challenge which takes place on 6<sup>th</sup> August 2009 which is in honour of Barry; the monies raised will go towards finding a cure for this dreadful disease.

Many Thanks

*Keith Chadwick*
