A new generation of Motorcycling

The **FIM**, anxious to prepare motorcycle sport for the future and to promote the use of motorcycles using alternative energies, is organising, on the occasion of its Conference Meetings, an exhibition of electric motorbikes from various manufacturers.

This exhibition will be held from Thursday 19 February until Sunday 22 February at the Crowne Plaza hotel in Geneva.

KTM will exhibit its KTM Electro Enduro prototype and the TTXGP company, its Brammo.

Quantya, a Swiss company, will bring three models: the "Strada", the "Track" as well as a new SuperMoto prototype that will be presented as a world first.

About FIM

FIM (WWW.FIM-LIVE.COM), the world governing body for motorcycle sport, is an independent association formed by 98 National Federations throughout the world. It is recognized as the sole competent authority in motorcycle sport by the International Olympic Committee (IOC). Among its 49 **FIM** World Championships its main events are MotoGP, Superbike, Endurance, Motocross, Supercross, Trial, Enduro and Speedway. **FIM** also deals with non-sporting matters such as leisure motorcycling, mobility, transport, road safety and public policy and the environment, **FIM** was the first International sporting Federation to enforce an Environmental Code in 1994.
