

# INVITATION to BAVARIAN OPENHOUSE 3<sup>rd</sup>- 5<sup>th</sup> June 2009, Telford

Innovative, flexible,  
machining solutions,  
with a choice of  
3, 4 or 5 axis CNC routers

PE 70  
CNC Machining Centre  
with 5 axis CNC router

You are invited to MAKAs 3-day Open House at Maka's new UK showroom in Telford on 3<sup>rd</sup> 4<sup>th</sup> & 5<sup>th</sup> June 2009.

The first day will be devoted to Plastics, Composites and Aluminium machines with the remaining two days focused on woodworking machines. Demonstrations on the popular MAKAs PE70 5-axis CNC woodworking machine - including windows and handrails - will show the quality, flexibility and power of the Maka.

The software demonstrations by **NC Hops, Top Solid, Delcam, Compass** and **Staircon** will give you the opportunity to compare the advantages and versatility of these different software packages.

MAKA will demonstrate the **Pro Collector** and the **SL Laser projectors** that speed up both the measurement and loading process for both pod positioning and illumination.

**Leitz Tooling** - whose tools will be used in the demonstrations - will be present to explain the different tooling options in detail and to advise on your special tooling.

And of course to make the occasion special, a traditional Bavarian reception of Bavarian beer, sausages and salads served with typical German hospitality will run throughout the day.

Please return to MAKAs UK at the address shown below
